EXPLANATION OF SYMBOLS

EXPLANATION OF SYMBOLS

EXPLANATION OF IP NUMBERS (DEGREES OF PROTECTION)

IP 00

	first character protection solid objects	symbol	second character protection against ingress of water	symbol
0	non-protected		non-protected	
1	objects > 50mm		dripping water	⬇
2	objects > 12mm		dripping water when tilted up to 15°	
3	objects > 2,5mm		spraying water	☼
4	objects > 1,0mm		splashing water	⚠
5	dust protected	⬠	water jets	⚠⚠
6	dust tight	⬠	heavy seas/powerful jets	⚠⚠

An example : ⚠ IP44 protected against objects > 1mm and splashing water (splash-proof)

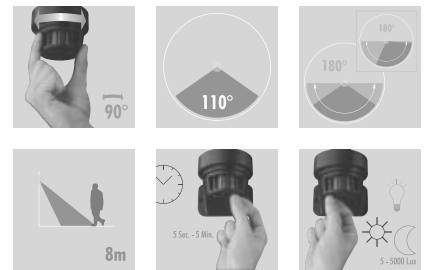

SECURITY OUTDOOR LIGHTING P.I.R.

P.I.R. 110°

The detection field angle of the movement sensor equals 110°. When mounted at a height of 2,5m the infrared sensor will react to any movement within a 8m range.

- ☼ Light sensitivity setting, stepless adjustable from 5 up to 5.000 Lux (complete darkness, dusk or daylight)
- 🕒 Time setting, stepless adjustable from 5 sec. up to 5 min.

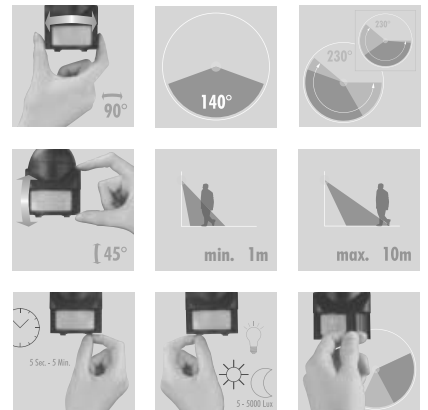

P.I.R. 140°

The detection field angle of the movement sensor equals 140°. Some detectors (type A) can be directed within a horizontal field of 230° and 45° vertically. When mounted at a height of 2,5m the infrared sensor will react to any movement within a range of 10m (type A) or 12m / 7m / 6m (type B).

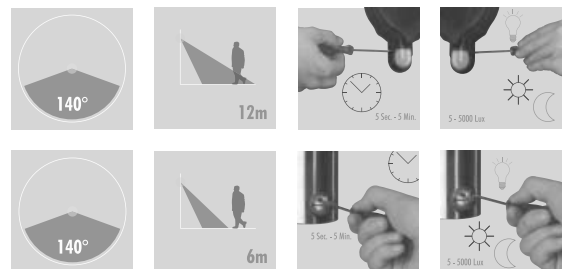

- ☼ Light sensitivity setting, stepless adjustable from 5 up to 5.000 Lux (complete darkness, dusk or daylight)
- 🕒 Time setting, stepless adjustable from 5 sec. up to 5 min.

With the help of the enclosed guards, you can adjust the detection angle yourself (only for type A).

TYPE A

TYPE B

outdoor
3 YEARS
guarantee

Massive offers a general guarantee of 3 years on the complete range of outdoor lighting.

Massive reserves the right to amend their products from time to time, and consequently the details given in this catalogue are subject to alteration without prior notice. Printing errors are reserved.

EXPLANATION OF SYMBOLS

All products in our range are designed, produced and tested according to the European standards EN 60.598 and consequently comply with the new legislation concerning the CE-testing (European Conformity). All measurements are approximate and given in mm.

SYMBOL			
	with brightness control (dimmer)		clear safety glass (halogen)
	with on/off switch or pull switch		...m wire
	double switch or two-way switch 33/50W		product including wire & plug
	three-way switch		Only suitable for indoor use
	telescopic arm (adjustable height - min./max.) product is delivered incl. an ALLEN-key		Suitable for indoor as well as outdoor use
	class I (earthed)		Suitable for building-in and also direct mounting on normally flammable surfaces
	class II (double insulated)		Luminaire with built-in ballast or transformer suitable for direct mounting on normally flammable surfaces
	class III (low voltage)		day and night switch
	height		infrared sensor
	width		solar
	projection		calculator
	depth		magnifying glass
	cut out size		transformer
	min. Recessed distance		Pulse switch, this built-in electronic switch senses the pulses of the in-house on/off switch. By using the on/off switch multiple times within a short period (< 10 sec.), the fixture automatically changes between light sources (LED and G9/PLCE).
	rise and fall pendant		
	glass component		
	synthetic component		
	shade component		
	acid safety glass (halogen)
